CAREGIVERS WEEKEND

\$175 per person; Under 2 Free Coed, All Ages

Parents, is there a grandparent, aunt, uncle, neighbor, or babysitter who is willing to look after your child with diabetes “if only they understood what diabetes is all about?” Or now that you have had time to breathe after your child’s recent diagnosis, are you still filled with lots of questions? Then Caregivers Weekend is the right fit for your family. Send your child to camp with the caregiver or bring your family where we will teach participants all the skills they need for diabetes management: checking blood sugars, using pumps/continuous glucose monitoring, counting carbs, dosing insulin, and everything in between in a relaxed and fun way. Everyone will leave camp with a better understanding and knowledge about diabetes.

November 17-19, 2017

WINTER CAMP

\$500 per person Coed, Ages 13-17

Calling all teens with diabetes! This winter vacation week program is just for you. Arrive ready to share your experiences of living with diabetes and learn about others. At Winter Camp, participants are provided an opportunity to explore how they are dealing with their diabetes—mentally, socially, psychologically, and create and use a support group of people who face the same daily challenges. Participants play a more significant role in their day-to-day diabetes management. Under the supervision of our health care staff, teens will be responsible for their own dosing and charting of numbers. Teen-themed topics are discussed over this four-day program. Fun, friendship, and laughs are guaranteed!

February 16-18, 2018

There may or may not be snow, but the thing you can count on is that there will be learning, laughing, and friendship!
