

The Barton Center for Diabetes Education

is one of the largest, independent camping and educational programs in the country, dedicated to children who live with diabetes and the people who care for them.

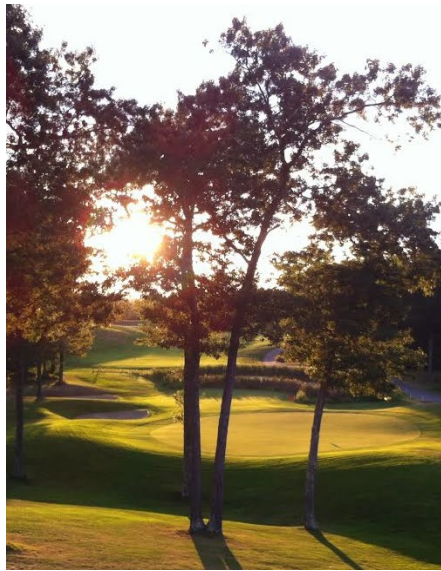

Breathe for Life Foundation

Congenital Central Hypoventilation Syndrome (CCHS) is a chronic disorder of the Autonomic Nervous System. CCHS is a lifelong multi-system disorder where, most dramatically, the automatic control of breathing is absent or impaired. CCHS only affects approximately 1,000 people worldwide.
