### Pre-Camp Blood Sugar and Insulin Record

Camper Name \_\_\_\_\_

(Last)

(First)

Parents/Guardians: Please fill in this chart with blood sugars and insulin doses from the week prior to your child's session at camp and **bring it with you on Opening Day**. This information will help the health care team manage your child's diabetes while at camp.

Day	3 am (blood sugar)	Breakfast (blood sugar and insulin)	Lunch (blood sugar and insulin)	Supper (blood sugar and insulin)	Bed (blood sugar and insulin)	Low Blood Sugar (time, blood sugar, and treatment given)	Comments
Sunday							
Monday							
Tuesday							
Wednesday							
Thursday							
Friday							
Saturday							
Opening Sunday							

#### Diabetes Supplies

The Barton Center Camps are very fortunate to have diabetes supplies donated each summer. You need to bring all supplies/equipment you need for your trip to and from camp, but it is not necessary to leave these supplies at camp. The exceptions are **Pump and CGM supplies** as these supplies are generally not donated in great quantities. Please remember to bring enough **batteries**, reservoirs/cartridges, infusion sets, tubing, sensors, etc., for twice the amount of time your child will be at camp.
