

The Barton Center for Diabetes Education, Inc.

RESIDENT CAMP COVID PROTOCOLS FOR SUMMER 2022 AS OF 6/1/22

PLEASE NOTE: THESE PLANS ARE SUBJECT TO CHANGE AS NECESSARY.

The Barton Center for Diabetes Education takes standards for hygiene and cleanliness very seriously and is taking additional steps to protect our campers, families, and staff. Our health and safety measures are designed to address a broad spectrum of viruses, including COVID-19, and include everything from hand hygiene and cleaning product specifications to the cleaning of program equipment and watercraft.

The purpose of this plan is to develop and implement a strategy to operate summer camp programs while preventing the spread and outbreak of COVID-19. We are closely monitoring government policy changes and are implementing many regulations from the American Camp Association (ACA) Operations Field Guide, Centers for Disease Control (CDC) Guidelines, mandates from the state of Massachusetts, and our local health officials. **We will continue to make changes, as necessary or appropriate, to our protocols and procedures to ensure our due diligence in making The Barton Center a viable and safe option for our families this season. We encourage you to check our website and your emails for the most up-to-date protocols prior to camp as any further changes will be posted on our website, and last-minute modifications will be emailed to you. Please contact The Barton Center directly with any COVID related questions prior to the start of camp.**

Facility Upgrades

The Barton Center will have hand sanitizer at activity areas, Winex air cleaners in each cabin, and additional upgrades to meet local and state building and health department guidelines. In addition to upgrades, we plan to increase circulation of outdoor air within buildings (via windows, doors, fans) as much as possible, unless doing so creates a hazard.

Program Cancellations

Public health conditions may change over the summer in a way that requires camp sessions to be canceled. We will monitor reports about infection rates and consult with local and state officials.

Vaccination status

Based on the newly expanded age eligibility for the COVID vaccination, all campers and staff will be required to be FULLY vaccinated prior to the start of camp. Per CDC definition, full vaccination begins two weeks after the second vaccine dose has been received. **No exceptions to this requirement will be made.** We do not require a booster at this time, but it is recommended. If your camper tests positive prior to the start of any camp, despite vaccination, please contact The Barton Center for further instructions.

Opening Day

Check-In: Staff will contact you to schedule a zoom check-in meeting the week prior to camp. You will then be given a scheduled time and location for drop off. **Please ensure you have sent in ALL required confirmation paperwork prior to your zoom meeting, including a copy of camper's covid vaccination card.** If we do not have all required paperwork on file at the time of this meeting, your camper will not be allowed to attend camp.

Opening day drop off is by appointment only: Please arrive at the scheduled time and designated area provided to you. **Upon arrival on opening day, everyone must remain in the vehicle.** After a health screening, rapid COVID test, quick health updates, and collection of all medications, a staff member will take your camper and their belongings to the cabin and help your child settle in. You will not be allowed to accompany your camper to their cabin, please say all good-byes prior to your drop-off appointment.

Opening Day Screening

Upon arrival at camp:

- Staff will perform symptom checks for all campers.
- A rapid COVID-19 test will be conducted for all campers upon arrival to camp and on day 3 or 4. If a camper tests positive upon arrival on opening day, the child must return home. The child will be allowed to come back to camp after the CDC recommended quarantine.

- Parent/Guardian will fill out the Camper Health Screening form to confirm their child and anyone in their household has not experienced any COVID-19 symptoms in the last 24 hours and that their child is not required to be in COVID-19 isolation or quarantine.
- Parent/Guardian must sign a written attestation regarding any household contacts to someone with COVID-19 symptoms or if they have given their child any fever reducing medication.

Closing Day

As with drop off, pick up will be by appointment only. You will be given a designated pick-up area and time when you drop off your child. Please remain in your vehicle when you arrive. Staff will assist campers in packing and will bring campers to your vehicle. You will receive an email with all your child's camp medical information within two hours of camp departure.

Masks (Adult/Children)

Masking is not required at camp, masking is optional. The Barton Center will supply disposable masks to all campers and staff if desired.

Daily Screening

Staff will perform daily symptom checks for all campers. A rapid COVID-19 test will be administered to any camper exhibiting any symptoms or running a fever/temperature.

Sick camper or staff

If a child exhibits any symptoms of COVID-19 illness while at a Barton program, a rapid COVID test will be administered. If a camper tests positive for COVID, they will be required to quarantine at Camp Joslin until the family is able to pick the camper up. If test results are inconclusive, a second rapid test will be administered. If a camper tests positive, every camper in the cabin will also receive a rapid COVID test. If additional campers test positive, they will be quarantined and sent home. All campers that test negative for COVID will remain at camp and be tested again in three days. Parents will be informed if their camper tests positive. If there is a close contact but the camper tests negative, parents will not be informed.

Activities

We will clean surfaces and equipment in accordance with CDC guidance, including the cleaning of high touch surfaces twice per day. Outdoor spaces will be used for most actives and less actives unless it is raining. For rainy days, campers will be in their cabins or rotate through larger indoor areas. Each cabin will have a box of art supplies and games that they can use inside their cabin.

Lost and Found Policy

In response to the COVID-19 pandemic, The Barton Center is limiting items held in lost and found, after each camp session ends.

Camp will only hold the following specific list of items:

jackets/sweatshirts; sleeping bags, blankets, pillows; prescription glasses; durable medical equipment; prescription medication; diabetes supplies and equipment; shoes (not water shoes or sandals); backpacks
Camp will keep these items for no longer than two weeks from the end of the session, after which, these items will be donated or thrown away. Please note that these items will be held at the discretion of camp staff. Items that are soiled, damaged, or otherwise deemed not able to be safely stored will be disposed of.

Camp will not hold the following specific list of items:

socks and underwear, all toiletries and toiletry bags, all swim gear including swimsuits and goggles, hats, t-shirts, pants, shorts, pajamas washcloths and towels, water shoes including sandals, water bottles, sunglasses, flashlights and headlamps, toys, cameras, arts and crafts projects including tie dye
